PROSPER ABAYOMI

FRONTEND ENGINEER

abayomiprosper4@gmail.com.com | Lagos, Nigeria

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3/SASS, SQL

Frameworks & Libraries: React.js, Next.js, Vue.js, Redux Toolkit, Tailwind CSS, Bootstrap

Testing & Tools: Jest, React Testing Library, Git, GitHub, RESTful APIs, Webpack/Vite

Backend & Cloud Services: Node.js, Firebase, Supabase

PROFESSIONAL EXPERIENCE

Frontend Engineer *NitHub UNILAG* Mar 2025 – Present

- Developed high-traffic web platforms for major regional tech events (Innovation Fair, Open Week) using React and Tailwind CSS, reducing page load times by 30% through reusable component architecture.
- Integrated BMONI SDK into an internal payment platform, reducing event sponsorship transaction processing times by 50% compared to legacy university systems.
- Modularized UI components across incubation projects, establishing standard Git workflows and automated testing suites using Jest to accelerate continuous delivery.

Frontend Developer *Remote* Jan 2025– May 2025

- Engineered custom, responsive web applications and portfolio platforms for business clients using React, JavaScript, and modern CSS frameworks.
- Optimized web performance and layout responsiveness, improving cross-device load metrics and SEO visibility for client websites.

Software Engineering Intern *NitHub UNILAG* Apr 2024– Sept 2024

- Co-architected a rental management application using React and custom state management patterns, optimizing real-time data updates across 10+ user views.
- Processed and visualized attendance analytics datasets for international tech conferences (ICAIR), providing real-time telemetry to organizers.

PROJECTS

Data Analyst (Remote) *Vanilla Concierge* Feb 2024 – Nov 2024

- Built an automated resource allocation application that resolves scheduling conflicts and faculty workload distribution using a custom rule-based scoring engine.
- Designed responsive UI dashboards for administrators to run constraint checks, decreasing manual timetable creation effort by over 80%.

EDUCATION

Bachelor of Science in Computer Science 2025

Bells University of Technology · Second Class Upper
